

BACKCOUNTRY NORTH CONSIGNOR PRICING WORKSHEET

Backcountry North follows a consistent pricing structure for consigned items, taking into consideration the product type, brand, condition, and original MSRP. If you prefer, you may use this worksheet to list your items, along with each item's MSRP, and a selling price range that is acceptable to you. While this will not override our standard pricing structure, we will decline your item if our proposed selling price falls below your specified minimum.

Additionally, please keep in mind that if your item does not sell within 90 days, it will automatically be marked down 20% further than the below price for the remaining 30 days.

Brand	Gender / Item Description	Comparable MSRP	Selling Price Range

Example Payouts

*Below examples are approximations only. Final prices are determined using our tiered pricing system and reflect current resale market value, which can vary greatly given the brand, item type, and condition of the product. The below example assumes that each item is sold within 90 days, before the additional 20% off markdown period.

Item	Est. MSRP	Condition	Est. Selling Price	Your Payout (Credit-65%)	Your Payout (Check-50%)
Arc'teryx Shell Jacket	\$600	Excellent	\$417	\$271.05	\$208.50
The North Face Fleece	\$85	Excellent	\$47	\$30.55	\$23.50
Marmot Sleeping Bag	\$180	Good	\$81	\$52.65	\$40.50
Coleman Tent	\$150	Good	\$56	\$36.40	\$28
